

# RAZAN BALATA

Full Stack Web Developer — Laravel | React | Next.js | AI Integration

Palestine | razanbalata@gmail.com | 0599920307 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

---

## PROFESSIONAL SUMMARY

---

Full Stack Web Developer specializing in building scalable web applications using Laravel, React, and Next.js. Experienced in developing business management systems, SaaS platforms, AI-powered applications, and secure API-driven solutions. Skilled in designing complete application architectures, authentication systems, and responsive user interfaces. Passionate about creating clean, maintainable, and production-ready solutions that solve real-world business challenges.

## TECHNICAL SKILLS

---

**Frontend Development:** React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Responsive Design, Zustand, TanStack Query

**Backend Development:** Laravel, PHP, MVC Architecture, REST APIs, Authentication, Authorization, Middleware, Role-Based Access Control

**Databases:** MySQL, PostgreSQL, Supabase, Database Design, Eloquent ORM

**AI Integration:** Google Gemini API, Groq API, AI-Powered Applications

**Tools & Technologies:** Git, GitHub, Postman, Figma, npm, Composer

## FEATURED PROJECTS

---

### Smart Pharmacy Management System

*AI-Powered Multi-Tenant Pharmacy Management Platform*

**Tech Stack:** Laravel, PHP, MySQL, Blade, Tailwind CSS, JavaScript, AI Integration

- Developed an AI-powered multi-tenant pharmacy management platform covering inventory, purchasing, sales, suppliers, and analytics.
- Implemented secure authentication, authorization, middleware, and role-based access control.
- Integrated AI-powered insights and designed scalable Laravel architecture with clean database relationships.

### AI Content Scheduler

*AI-Powered Social Media Content Management Platform*

**Tech Stack:** Next.js, React, TypeScript, Supabase, Gemini AI, Tailwind CSS

- Built an AI-powered platform for generating, managing, scheduling, and publishing social media content.
- Integrated Google Gemini AI for content generation, enhancement, and conversational workflows.
- Developed secure authentication and scalable architecture using Next.js App Router and Feature-Sliced Design.

### Restaurant Ordering System

*Full-Stack Restaurant Management & Ordering Platform*

**Tech Stack:** Next.js, React, TypeScript, Supabase, Gemini AI

- Developed a full-stack platform connecting customers and restaurant owners with restaurant, menu, cart, and order management.
- Implemented real-time order updates, secure authentication, and role-based access control.
- Integrated AI-powered menu generation using Google Gemini and built scalable application architecture.

## EXPERIENCE

---

Backend Developer Trainee — Laravel & AI Integration

04/2026 – Present

UCASTI

- Participate in project-based training focused on PHP, Laravel, backend development, and scalable application architecture.
- Develop backend features including database design, REST APIs, authentication, business logic, and secure coding practices.
- Integrate AI-powered tools and intelligent APIs while applying clean architecture principles to build maintainable backend solutions.

Front-End Developer Trainee

04/2026 – 07/2026

Atyaf Company

- Developed responsive and user-friendly web applications using modern frontend technologies.
- Applied frontend development practices in a professional environment through real-world projects.
- Collaborated on improving UI implementation, code quality, and development workflow.

Front-End Developer Trainee

08/2025 – 01/2026

Gaza Sky Geeks

- Developed clean, responsive, and user-friendly web applications using modern frontend technologies.
- Built and optimized web applications including e-commerce platforms and interactive job portals.
- Applied component-based development, responsive design, and API integration practices.
- Collaborated in a professional training environment to improve software quality.

EDUCATION

---

Bachelor of Software Engineering

2023 – Present

Al-Azhar University

- Practical experience in software development, programming, web technologies, and software project implementation.
- Applied software engineering principles through academic and practical projects.
